# Release Overview

The Telescope Standard 2020.4 release contains enhancements which address issues as reported by customers following the last release of the product, version 2020.3, published in April, 2020.

| | |
|---|---|
| RELEASE VERSION | Telescope Standard 2020.4 |
| RELEASE DATE | May 2020 |
| RELEASE TYPE | Generally Available |
| DELIVERABLES | Product Release Software and Release Documentation |

# Release Strategy

As we build a great new foundation for Northplains, every release will focus on theme-based features and enhancements prioritized within the roadmap. The Northplains product management team bundles tasks into releases thematically so that it's clear how each release will impact your use of Telescope.

The Telescope Standard 2020.4 release is available now and focuses on Workflow and Search.

Highlights include:

- Search results display only current assets, not those marked for deletion
- Transformation platform improvements
- General quality and performance enhancements

Have a great idea? We'd love to hear it! We believe the best product ideas come directly from our users. Click here to submit your feature request directly to our product team!
